

[NOTE: The California State University (CSU) participates in a series of surveys of retention and graduation rates of various cohorts of students that are organized annually by the Consortium for Student Retention Data Exchange (CSRDE) at the University of Oklahoma. Details of the surveys are at the CSRDE Web site: <http://csrde.ou.edu> The STEM fields for which student progress at each CSU campus are assessed include those highlighted in yellow on the next page. This information was provided by CSRDE to CFB on 29 April 2013.]

CIP CROSSWALK AND THE STEM SURVEY

CIP 2000 to 2010 Crosswalk

The development of the CIP-2010 revision has resulted in changes to some program classifications (additions, deletions and movements of individual programs and program groups).

The CIP Crosswalk can be found at <http://nces.ed.gov/ipeds/cipcode/crosswalk.aspx?y=55>

Some changes were made in the CIP codes that we use for our CSRDE/STEM study. We have looked at the crosswalk, and all of the codes that were used in past surveys will still be included this year. In addition, we are including the new codes that fall within the main CIP categories in our study.

CIP 2010 CLASSIFICATION CODES IN THE STEM SURVEY

All of the following CIP codes will be reported on the STEM survey:

01.0000
01.0801
01.09-01.9999
03.xxxx
11.xxxx
14.xxxx
15.xxxx
26.xxxx
27.xxxx
30.1901
40.xxxx

See the next page for a summary of the CIP 2010 changes used in the STEM survey.
