### Footnotes:

- **Prerequisites/Corequisites:** Other restrictions may apply. Please see your course catalog for detailed prerequisite/corequisite requirements.
- **MATH 75:** MATH 75A & B may be taken in lieu of MATH 75.
- **PHYS 4A/4AL:** PHYS 4AL is not required for the Mathematics major. If students wish to include PHYS 4A as a General Education Breadth course, they must also take PHYS 4AL.
- **MATH Elective (16-18 units):** Math electives of the Applied Math Option select four courses from MATH 109, 121, 122, 123, 128, 181, 182; and the following two courses: MATH 191T and MATH 198.
- **Electives (9-12 units):** Units in this area may be used toward a double major or minor. Students must earn a minimum of 120 units total to graduate. The number of required elective units may vary, depending on the amount of units earned from major and GE courses.
- **Upper Division Writing Skills Requirement (UDWS):** Consider taking ANTH 105W (UD GE MI) or ANTH 116W (UD GE ID) to satisfy your upper division Writing Skills Requirements. All undergraduate students must demonstrate competency in writing skills by passing the Upper Division Writing Exam (UDWE) or by obtaining a C or better in an approved upper division writing course, identified by the letter "W."
- **Substitutions:** if substitutions/exceptions/waivers are made for any major courses that also meet GE and/or the Multicultural/International graduation requirement, the student is responsible for completing additional courses to satisfy the respective areas (GE and/or MI). This also includes the upperdivision writing requirement.
