

**Accessibility and Patron Experience at Select Las Vegas Entertainment Venues**

**Researcher(s):**

Michael Mahoney, Ed.D., Associate Professor  
Department of Recreation Administration, Fresno State

**Abstract:**

This research project involves conducting a venue analysis of the Accessibility and Patron Experience at select Las Vegas Entertainment Venue. The research focus is of the physical design of the venue, and the implemented accessibility program in terms of providing a basic level of access for ticketed and credentialed individuals (patrons, media, staff, and older adults) with and without disabilities so that they, their families, and friends can enjoy equal access. The public assembly venue is to be used for numerous sport, entertainment, music festival and other special events all of which are the research and teaching discipline of the author.
