Zimbra Accessibility (ADA compliant)

The following are provided to help keep your Zimbra email and calendar usage consistent, professional, and up-to-date.

- [Change to Standard (HTML) Version](#)

Zimbra's Standard (HTML) version of the web client has been specifically designed by the vendor to be accessible to users with disabilities and is Section 508 compliant. Users can set a preference in Zimbra to use the Standard (HTML) version instead of the Advanced (AJAX) version.

Change to the Standard (HTML) version:

1. Choose the **Preferences** tab
2. Under **General Settings/Login Options**, choose the radio button to "**Login using the Standard (HTML) version**"
3. Choose **Save** from the upper left area of the screen
4. Log out and back in for changes to take effect
