

V. Sattui Winery
Harvest Internship
Napa, CA

Description: We are seeking harvest interns for temporary, full-time work during the 2021 grape harvest, generally starting on August 15 through November 15, with opportunities to stay on through the end of the year. We pay a competitive salary and provide training and mentoring to students who would like to pursue a career in Wine Production/Lab/or other facets of the industry. It is a great intro to the wine business, with hands-on, real life winemaking experiences that can shape an individual's perspective on grape-growing and wine production.
