

# 2019 | Health Benefit Summary

Helping you make an informed decision about your health plan

## About CalPERS

CalPERS is the largest purchaser of public employee health benefits in California, and the second largest public purchaser in the nation after the federal government. Our program provides benefits to more than 1.4 million public employees, retirees, and their families.

Depending on where you reside or work, CalPERS offers active employees and retirees one or more types of health plans, which may include:

- Health Maintenance Organization (HMO)
- Preferred Provider Organization (PPO)
- Exclusive Provider Organization (EPO)  
(for members in certain California counties)

The CalPERS Board of Administration annually determines health plan availability, covered benefits, health premiums, and co-payments.

Whether you are working or retired, your employer or former employer makes monthly contributions toward your health premiums. The amount of this contribution varies. Your cost may depend on your employer or former employer's contribution to your premium, the length of your employment, and the health plan you choose. For monthly contribution amounts, active employees should contact their employer, State retirees should contact CalPERS, and contracting agency retirees should contact their former employer.

### Health Care Affordability

**Transform health care purchasing and delivery to achieve affordability**

We aspire to transform health care purchasing and delivery, to make it affordable while providing the best value in health care to our members. We seek to understand rising health care costs and the impact of wellness on those costs.

## About This Publication

The *2019 Health Benefit Summary* provides valuable information to help you make an informed choice about your health plan and health care providers. This publication compares covered services, co-payments, and benefits for each CalPERS health plan. It also provides information about plan availability by county and a chart summarizing important differences among health plan types.

You can use this information to determine which health plan offers the services you need at the cost that works for you. The 2019 health plan premiums are available at the CalPERS website at [www.calpers.ca.gov](http://www.calpers.ca.gov). Check with your employer to find out how much they contribute toward your premium.

The *2019 Health Benefit Summary* provides only a general overview of certain benefits. It does not include details of all covered expenses or exclusions and limitations. Please refer to each health plan's *Evidence of Coverage* (EOC) booklet for the exact terms and conditions of coverage. Health plans mail EOCs to new members at the beginning of the year, and to existing members upon request. In case of a conflict between this summary and your health plan's EOC, the EOC establishes the benefits that will be provided.

We recommend that you only use this publication in conjunction with the current year's health premium rate schedule and EOCs. To obtain a copy of the health premium rate schedule for any health plan, please go to the CalPERS website at [www.calpers.ca.gov](http://www.calpers.ca.gov) or contact CalPERS at 888 CalPERS (or 888-225-7377).

### Other Health Publications

This publication is one of many resources CalPERS offers to help you choose and use your health plan. Others include:

- *Health Program Guide*: Describes Basic and Medicare health plan eligibility, enrollment, and choices
- *CalPERS Medicare Enrollment Guide*: Provides information about how Medicare works with your CalPERS health benefits

You can obtain the above publications and other information about your CalPERS health benefits through my|CalPERS at [my.calpers.ca.gov](http://my.calpers.ca.gov) or by calling CalPERS at 888 CalPERS (or 888-225-7377).

# Considering Your Health Plan Choices

Selecting a health plan for you and your family is one of the most important decisions you will make. This decision involves balancing the cost of each plan, along with other features, such as access to doctors and hospitals, pharmacy services, and special programs for managing specific medical conditions. Choosing the right plan ensures that you receive the health benefits and services that matter to you.

If you are a new CalPERS member or you are considering changing your health plan during Open Enrollment, you will need to make two related decisions:

- Which health plan is best for you and your family?
- Which doctors and hospitals do you want to provide your care?

The combination of health plan and providers that is right for you depends on a variety of factors, such as whether you prefer a Health Maintenance Organization (HMO) or Preferred Provider Organization (PPO); your premium and out-of-pocket costs; and whether you want to have access to specific doctors and hospitals.

We realize that comparing health plan benefits,

features, and costs can be complicated. This section provides information that can simplify your decision-making process. As you begin that process, the following are some questions you should ask:

- Do you prefer to receive your health care from an HMO or PPO? Your preference will impact the plans available to you, your access to health care providers, and how much you pay for certain services. See the chart on the next page for a summary of the differences among plan types.<sup>1</sup>
- What are the costs (premiums, co-payments, deductibles, and coinsurance)? Beginning on page 16 of this booklet, you will find information about benefits, co-payments, and covered services. Visit the CalPERS website at [www.calpers.ca.gov](http://www.calpers.ca.gov) to find out what the premiums are for the various plans.
- Does the plan provide access to the doctors and hospitals you want? Contact health plans directly for this information. See the “Health Plan Directory” on page 14 of this booklet for health plan contact information.

<sup>1</sup> Note that in a few counties where access to HMOs is limited, a third option, Exclusive Provider Organization (EPO), is available. An EPO provides benefits similar to an HMO with some PPO features.

## Understanding How CalPERS Health Plans Work

The following chart will help you understand some important differences among health plan types.

Features	HMO	PPO	EPO
Accessing health care providers	Contracts with providers (doctors, medical groups, hospitals, labs, pharmacies, etc.) to provide you services at a fixed price	Gives you access to a network of health care providers (doctors, hospitals, labs, pharmacies, etc.) known as preferred providers	Gives you access to the EPO network of health care providers (doctors, hospitals, labs, pharmacies, etc.)
Selecting a primary care physician (PCP)	Most HMOs require you to select a PCP who will work with you to manage your health care needs <sup>1</sup>	Does not require you to select a PCP	Does not require you to select a PCP
Seeing a specialist	Requires advance approval from the medical group or health plan for some services, such as treatment by a specialist or certain types of tests	Allows you access to many types of services without receiving a referral or advance approval	Allows you access to many types of services without receiving a referral or advance approval
Obtaining care	Generally requires you to obtain care from providers who are a part of the plan network  Requires you to pay the total cost of services if you obtain care outside the HMO's provider network without a referral from the health plan (except for emergency and urgent care services)	Encourages you to seek services from preferred providers to ensure your coinsurance and co-payments are counted toward your calendar year out-of-pocket maximums <sup>2</sup>  Allows you the option of seeing non-preferred providers, but requires you to pay a higher percentage of the bill <sup>3</sup>	Requires you to obtain care from providers who are a part of the plan network  Requires you to pay the total cost of services if you obtain care outside the EPO's provider network without a referral from the health plan (except for emergency and urgent care services)
Paying for services	Requires you to make a small co-payment for most services	Limits the amount preferred providers can charge you for services  Considers the PPO plan payment plus any deductibles and co-payments you make as payment in full for services rendered by a preferred provider	Requires you to make a small co-payment for most services

<sup>1</sup> Your PCP may be part of a medical group that has contracted with the health plan to perform some functions, including treatment authorization, referrals to specialists, and initial grievance processing.

<sup>2</sup> Once you meet your annual deductible and co-insurance, the plan pays 100 percent of medical claims for the remainder of the calendar year; however, you will continue to be responsible for co-payments for physician office visits, pharmacy, and other services, up to the annual out-of-pocket maximum.

<sup>3</sup> Non-preferred providers have not contracted with the health plan; therefore, you will be responsible for paying any applicable member deductibles or coinsurance, plus any amount in excess of the allowed amount.

## Choosing Your Doctor and Hospital

---

Once you choose a health plan, you should select a primary care physician. Except in the case of an emergency, the doctors you can use — and the medical groups and hospitals you will have access to — will depend on your choice of health plan.

Many people find their doctor by asking neighbors or co-workers for a doctor's name. Others receive referrals from doctors they already know. Still others simply select a physician from their health plan who happens to be nearby. You can also use the *Find a Medical Plan* tool (described on page 10), which is available by logging into your my|CalPERS account at [my.calpers.ca.gov](http://my.calpers.ca.gov). Before you

choose a health plan, you should call the health plan's member services to inquire about physician availability. Either way, you should confirm that the doctor is taking new patients in the plan you select.

If you need to be hospitalized, your health plan or medical group will have certain hospitals that you are able to use. If you prefer a particular hospital, you should make sure the health plan you select contracts with that hospital. See page 15 for a list of resources that can help you evaluate and select a doctor and hospital.

## Enrolling in a Health Plan Using Your Residential or Work ZIP Code

---

Some of our health plans are available only in certain counties and/or ZIP Codes. As you consider your health plan choices, you should determine which health plans are available in the ZIP Code in which you are enrolling.

In general, if you are an active employee or a working CalPERS retiree, you may enroll in a health plan using either your residential or work ZIP Code.

If you are a retired CalPERS member, you may select any health plan in your residential ZIP Code area. You cannot use the address of the CalPERS-covered employer from which you retired to establish ZIP Code eligibility.

To enroll in a Medicare Advantage plan, you must use your residential address. In addition, Medicare Part D Employer Group Waiver plans require you to provide a physical address.

If you have a combination of Basic and Medicare members on your health plan, you must choose a health plan that has both Basic and Medicare plan options available within your residential ZIP Code area.

If you use your residential ZIP Code, all enrolled dependents must reside in the health plan's service area. When you use your work ZIP Code, all enrolled dependents must receive all covered services (except emergency and urgent care) within the health plan's service area, even if they do not reside in that area.

To determine if the health plan you are considering provides services where you reside or work, see the "Health Plan Availability by County" chart on the following page. You can also use the *Health Plan search by ZIP Code*, which is available on the CalPERS website at [www.calpers.ca.gov](http://www.calpers.ca.gov), to find out which plans are available in your area. If you have questions about plan availability or coverage, or wish to obtain a copy of the *Evidence of Coverage*, contact the health plans using the "Health Plan Directory" on page 14.

# CalPERS Health Plan Member Survey Results

CalPERS conducts an annual Health Plan Member Survey to assess members' experience with their health plan during the previous 12-month period. We use a modified version of the Consumer Assessment of Healthcare Providers and Systems (CAHPS) Survey, a standard tool for measuring health plans. CalPERS evaluates the survey results to compare satisfaction ratings across health plans and over time. The results below reflect member health plan satisfaction during the 2017 year.

Member ratings offer another tool to help you choose a plan that is right for you. Please note that your experience may differ depending on your needs, behavior, and expectations, as well as your provider and treatment choices.

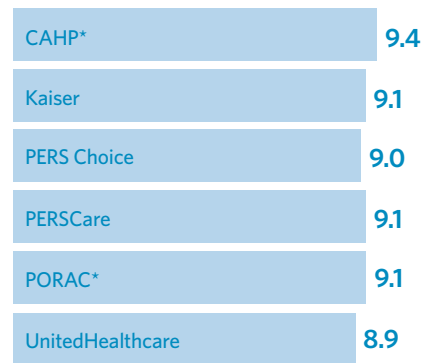

## Member Rating of Health Plans

Members were asked to rate their health plan on a 10-point scale with 10 being most satisfied. The following charts show the average rating by plan respondents in eligible Basic and Medicare health plans.

### 2017 Basic Plan Ratings

### 2017 Medicare Plan Ratings

\* Association Plans (CCPOA, CAHP, and PORAC) are available only to members who belong to the applicable association.

The CalPERS Health Benefits Program Annual Report displays additional member satisfaction scores including specialist and primary care physician, access to care, and other valuable information about the Health Program. To view the report visit CalPERS online at [www.calpers.ca.gov](http://www.calpers.ca.gov).

## Obtaining Health Care Quality Information

---

Following is a list of resources you can use to evaluate and select a doctor and hospital.

### Hospitals

#### CalQualityCare

[www.CalQualityCare.org](http://www.CalQualityCare.org)

From hospitals to home care, CalQualityCare.org makes it easy to find providers and compare the quality of health care in California.

#### U.S. Department of Health and Human Services

[www.medicare.gov/hospitalcompare](http://www.medicare.gov/hospitalcompare)

Hospital Compare has information about the quality of care at over 4,000 Medicare-certified hospitals across the country.

#### The Leapfrog Group

[www.leapfroggroup.org](http://www.leapfroggroup.org)

This is a coalition of health purchasers who have found that hospitals meeting certain standards have better care results.

### Doctors and Medical Groups

#### Medical Board of California

[www.mbc.ca.gov](http://www.mbc.ca.gov)

This is the California State agency that licenses medical doctors, investigates complaints, disciplines those who violate the law, conducts physician evaluations, and facilitates rehabilitation where appropriate.

#### Have you done a checkup on your doctor's license?

The Medical Board of California encourages consumers to check up on their doctor's license. Such a checkup is simple and helps you make an informed choice when choosing a doctor. To determine a doctor's status, go to the Medical Board's website at [www.mbc.ca.gov](http://www.mbc.ca.gov) or if you do not have a computer, call (800) 633-2322 and Medical Board staff will look up the doctor for you.

#### Office of the Patient Advocate

[www.opa.ca.gov](http://www.opa.ca.gov)

This website includes a State of California-sponsored "Report Card" that contains additional clinical and member experience data on HMOs, PPOs and medical groups in California.
