The Board of Directors
The Agricultural Foundation of
California State University, Fresno
Fresno, California

We have audited the accompanying statements of financial position of The Agricultural Foundation of California State University, Fresno as of June 30, 2007 and 2008, and the related statements of activities and cash flows for the years then ended. These financial statements and additional information are the responsibility of the Agricultural Foundation's management. Our responsibility is to express an opinion on these financial statements and additional information based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Agricultural Foundation of California State University, Fresno as of June 30, 2007 and 2008, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information on pages 14 to 18 is presented, as required by the Chancellor of the California State University, for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

THE AGRICULTURAL FOUNDATION OF CALIFORNIA STATE UNIVERSITY, FRESNO NOTES TO THE FINANCIAL STATEMENTS June 30, 2007 and 2008

Note 1 - Summary of Significant Accounting Policies

The Agricultural Foundation of California State University, Fresno was incorporated on December 3, 1954 as a non-profit corporation. The Agricultural Foundation was formed and is operated exclusively to receive, hold, invest, and administer property and to make expenditures to or for the benefit of California State University, Fresno (the "University"). The organization is supported primarily by sales of products from the various operating units. For the year ended June 30, 2008, approximately 14% and 12% of the organization's support was from sales by the Dairy and Orchard units, respectively.

The Agricultural Foundation maintains its accounting records and prepares its financial statements on the accrual basis of accounting. Therefore, revenues are recognized when earned and expenses are recognized when goods or services are received.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Donor Imposed Restrictions

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

Net Assets

General Net Assets (or Fund): This category is maintained to account for those transactions related to all activities not covered in a specific fund and which relate in general to the full scope of operations of the auxiliary organization, including accounting for the revenue and expenses of various agricultural units. These funds are appropriated in accordance with the policies established by the Trustees of The California State University (Trustees), the campus, and the auxiliary organization.

Designated Net Assets: When appropriations from the General Fund are made by the Board of Directors for a specific purpose, they are classified as designated net assets.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Allowance for doubtful accounts in the amount of \$4,893 has been established as of June 30, 2007 and the allowance is \$3,782 at June 30, 2008.

Note 1 - Summary of Significant Accounting Policies, continued

Inventories

Raised and donated inventory of animals held for sale is carried at maximum raised value established by the Board of Directors. Such values for all animal units were last reviewed in 2005. Inventory values are equivalent to average cost to raise to maturity. Purchased animals held for sale are valued at cost.

Donated Services

The Agricultural Foundation receives various donated services. The estimated fair values of donations in excess of \$1,000 are recorded as support and expense in the period received.

Expense Allocation

The costs of providing various programs and other activities have been summarized on a functional basis in Note 8 – Expenses by Natural Classification. Accordingly, certain costs have been allocated among programs and supporting services.

Fixed Assets

Fixed assets represent milking livestock, breeding herds, and equipment. Raised and donated milking livestock and breeding herds are carried at maximum raised value established by the Board of Directors. Purchased milking livestock and breeding herds are carried at cost less accumulated depreciation. Depreciation of livestock and herds is computed using straight line rates established by the Board, and the costs are depreciated down to the maximum raised value. The organization capitalizes all expenditures for equipment in excess of \$1,500. Equipment is carried at cost less accumulated depreciation. Depreciation of equipment is computed using straight line rates based upon estimated useful lives.

Capitalized development costs represent costs incurred for non-producing vineyards and orchards. The costs are depreciated over 10 years as the vineyards and orchards commence production.

Gross Sales

Sales of crops are recorded net of certain custom harvesting costs.

Investments

Investments, marketable securities, are recorded at cost when purchased and at market value, thereafter. Market value is based on quoted market prices.

Tax Status

The Agricultural Foundation is organized and operated exclusively for educational purposes and is thus allowed tax exempt status under provisions of section 501(c)(3) of the Internal Revenue Code and section 21701(d) of the California Revenue and Taxation Code. However, income for certain activities not directly related to the organization's tax-exempt purpose is subject to taxation as unrelated business income.

Advertising Costs

Advertising costs are expensed as incurred and totaled \$22,294 and \$19,994 in 2007 and 2008, respectively.

Any investment losses are proportionately shared by all funds in the pool.
